Subject: FW: Follow-up Discussion - list of documents

This is long email train. Bottom line: we will get our list of topics/questions to John by the end of next week for a subsequent call.

Valois,

Sound good. Yes you are correct. Everything submitted and listed here is a license requirement. Please let me know if you need any further assistance with these documents as we know them pretty well, but in all it can be a lot of pages.

End of next week sounds good for a list of topics.

Thanks.

John

Subject: RE: Follow-up Discussion - list of documents

Hi John,

While I was reviewing the license-related documents, I think I found the list of documents the NRC considers to be part of the license application in the Safety Evaluation Report, Appendix A:

From Safety Evaluation Report, APPENDIX A, STANDARD LICENSE CONDITIONS
Administrative Condition 9.2

The licensee shall conduct operations in accordance with the commitments, representations, and statements contained in the license application dated

1. February 28, 2009 (Accession No. ML091200014), which is supplemented by the submittals dated
2. August 10, 2009 (Accession No. ML092870160);
3. June 28, 2011 (Accession No. ML112071064);
4. February 27, 2012 (Accession No. ML120620195);
5. April 11, 2012 (Accession No. ML121030013);
6. June 13, 2012 (Accession No. ML12173A038);
7. June 27, 2012 (Accession No. ML12179A534); and
8. October 19, 2012 (Accession No. ML12305A056).

The approved application and supplements are, hereby, incorporated by reference, except where superseded by specific conditions in this license. The licensee must maintain at least one copy of its complete, updated, and approved license application at the licensed facility. Unless otherwise specified, all references to the "license application" refer to the current, updated application including updates made per License Condition (LC) 9.4.

Whenever the words "will" or "shall" are used in the above referenced documents, it shall denote a requirement.

I would like to take some time to finish reviewing these documents to identify wildlife mitigation measures and mitigation measures related to the EPA cumulative effects analysis. I propose contacting you by the end of next week with a list of topics for our next call.

Thanks!

Valois

Valois,

Yes, glad to review your list and supplement with anything that is available.

Thanks.

John

Subject: RE: Followup Discussion

Hi John,

I don't really have an answer yet. I have been reviewing the difference groups of documents related to the NRC license application. I am almost finished with that review. I started this review after our last call when you mentioned that the NRC license application had requirements related to mitigation measures for wildlife protection.

I would like to give you the list of documents I have located so you could let me know if there are any that I haven't identified.

I will email that list to you tomorrow. Does that work for you?

Thanks!

Valois

Douglas and Valois,

Reaching out to you again about when we can schedule the next meeting to discuss the draft permit. Didn't see any response to the below.

Please let us know when we can possibly schedule something.

Thanks.

John

Subject: Followup Discussion

Doug and Valois,

Last time we spoke we discussed scheduling a follow up meeting some time at the end of March. Just wanted to follow up to see if you are ready to schedule another discussion.

Thanks,

John
